

IILM UNIVERSITY, GREATER NOIDA

INTERNSHIP REPORT PRESENTATION

Google AI-ML

Virtual Internship

AICTE – EduSkills Virtual Internship Program | Supported by Paloalto Networks

Dipanshu Kumar

Roll No. 2410031294 | B.Tech CSE

June – August 2026

**Dipanshu
kumar**

B.Tech – Computer Science & Engineering

ABOUT THE STUDENT

Candidate Profile

Roll Number

2410031294

Institute

IILM University, Greater Noida, U.P.

Programme

B.Tech CSE, Batch 2024–2028

Internship Domain

Cybersecurity

Duration

8 Weeks | June – August 2026

ABOUT THE PROGRAM

EduSkills, Cybersecurity Internship

EduSkills Academy is an ISO 9001:2015 and ISO/IEC 20000-1:2018 certified organization working under the theme “Nation Building Through Skills.” It partners with the All India Council for Technical Education (AICTE) to conduct the AICTE–EduSkills Virtual Internship Program under the patronage of the AICTE National Internship Portal. For the Cybersecurity track, EduSkills collaborates with Palo Alto Networks to provide students with industry-oriented cybersecurity learning, practical exposure, assessments, and project-based activities designed to develop foundational skills in cybersecurity.

ISO Certified

ISO 9001:2015 & ISO/IEC 20000-1:2018
certified organization.

AICTE Patronage

Run under the AICTE National Internship
Portal.

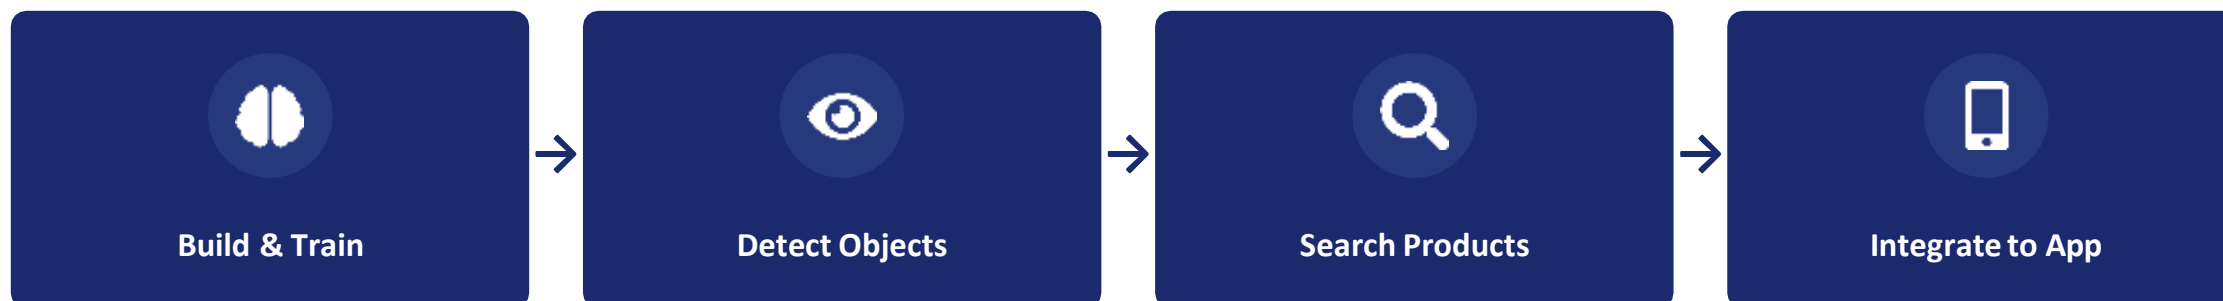

Cybersecurity

Industry oriented cybersecurity curriculum
delivered with the support of Palo Alto
Networks.

Bridging Theory and Applied Computer Vision

Although many engineering students learn the theoretical foundations of machine learning and neural networks in coursework, very few get structured, hands-on exposure to building and applying computer-vision models using an industry-standard framework such as TensorFlow. Concepts such as convolutional neural networks, on-device object detection, and image classification are often understood only theoretically — with little practice converting and integrating such models into real applications.

This internship addressed that gap — practically learning the full TensorFlow-based workflow:

What the Internship Set Out to Achieve

- **Network Security**

Understand how networks are protected against unauthorized access and attacks.

- **Threat & Vulnerability Analysis**

Identify common weaknesses and assess potential security risks.

- **Security Monitoring**

Learn the role of logs, alerts and monitoring in detecting suspicious behavior.

- **Incident Response**

Understand the stages involved in identifying, containing and responding to incidents.

- **Identity & Access**

Explore authentication, authorization and the principle of least privilege.

- **Security Awareness**

Recognize human factors such as phishing, social engineering and safe practices.

The Toolkit Behind the Internship

Firewall

Traffic filtering
& access control

SIEM

Centralized
security
monitoring

IDS / IPS

Threat
detection &
prevention

VPN

Secure remote
connectivity

Encryption

Confidentiality & data
protection

IAM

Identity & access
management

Endpoint Security

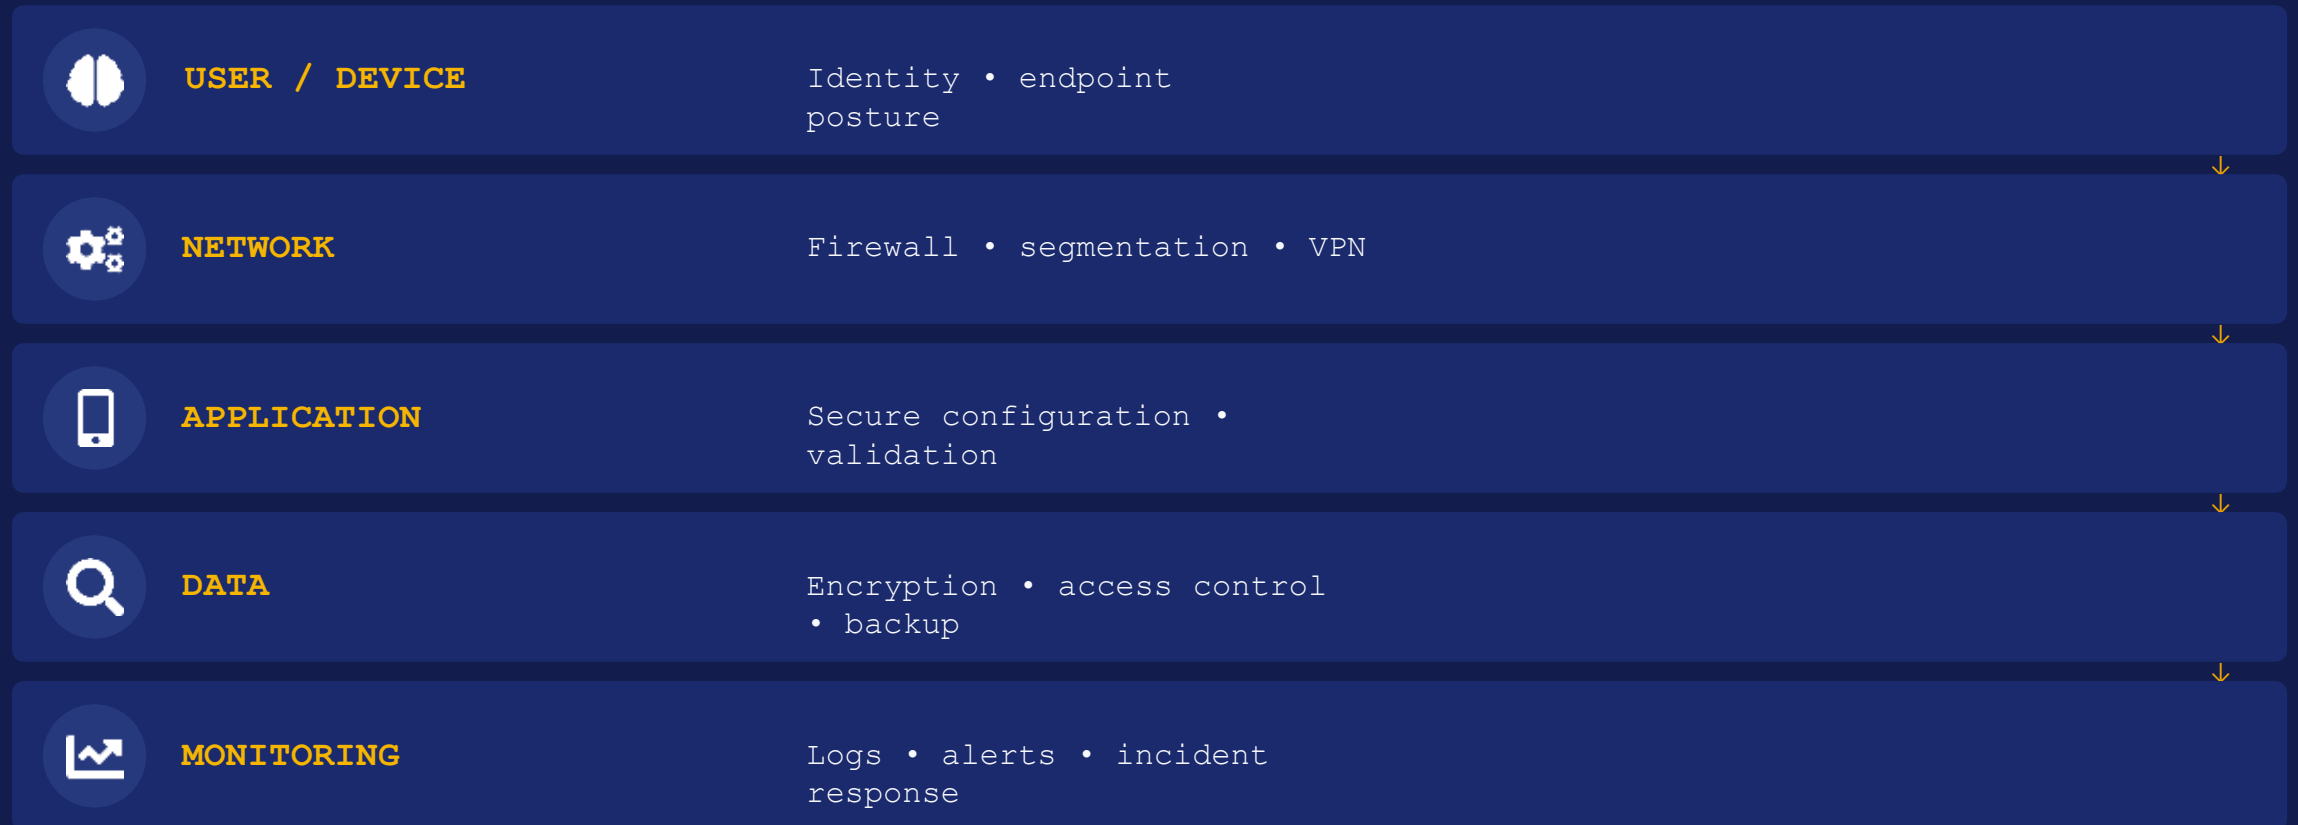

Device
protection &
monitoring

Network Analysis

Traffic
inspection &
investigation

From Trained Model to Mobile Application

The 8-Week Learning Journey

1 WEEK 01

Cybersecurity
Foundations
Security principles,
threats and attack
surfaces

2 WEEK 02– 03

Network Security
Firewalls, secure
connectivity and
network defense

3 WEEK 04– 05

Network Security
Firewalls, secure
connectivity and
network defense

4 WEEK 06–07

Incident Response
Identification,
containment and
investigation

5 WEEK 08

Security Practices
Access control, data
protection and
security awareness

EXPECTED OUTCOMES

Skills & Capabilities Gained

- ✓ Understand core cybersecurity concepts and terminology
- ✓ Recognize common threats, vulnerabilities and attack vectors
- ✓ Understand network and endpoint protection mechanisms
- ✓ Interpret the role of monitoring, alerts and security logs
- ✓ Apply secure access and data-protection practices

Completed all learning-pathway modules & badges; cleared the Final Credential Validation with an “Outstanding” grade

CERTIFICATION

Successfully Completed

Grade

O – Outstanding

Certificate ID

9b5b994248741a69905398d60b99e881

Student ID

STU69025ec364e4d1761763012

Duration

8 Weeks | June – August 2026
